Eye Catchers

CHANGING THE FRAMES OF YOUR EYEGLASSES CAN CHANGE THE WAY PEOPLE LOOK AT YOU. *By Danielle Fox*

CONTRAST YOUR FACE SHAPE

ROUND = Angular frames will narrow out a wide face.

SQUARE = Use round frames to soften a hard jaw.

HEART = Frames that are wider at the bottom or dip between the eyes minimize a forehead.

OVAL = Anything, as long as it's proportional to your face.

MATCH YOUR SKIN TONE TO THE FRAME COLOR

DARK = Go bold in red, or stay subdued in tan or light yellow. Black is easy but strong.

MEDIUM = Tortoiseshell and jewel tones, such as burgundy or forest green, flatter olive skin.

PALE = Navy or eggplant creates contrast. A light to medium tortoiseshell adds interest.

DON'T CROSS THE BRIDGE

SHORT OR STUBBY NOSE = Clear or metal bridges help slim and lengthen a puggy snout.

LONG = Low, dark, and straight bridges will shorten a pronounced beak.

Fast Fixes

REBOOT YOUR LOOK WITHOUT BREAKING THE BANK

Swap Out Your Buttons

Buttons do more than keep your coat closed, says stylist Jacqui Stafford: They telegraph class. To improve any coat, replace cheap-looking plastic with faux horn or leather-wrapped buttons. Try sites like M&J Trimming and Etsy.

Upgrade Your Watch Strap

The strap is almost as important to your look as the watch face. Instead of a traditional metal link bracelet, wear an updated silicone or leather strap to better match your style. For inspiration, search online at Hodinkee and Timex.

Resole Your Heels

Dress shoes and boots can be reelected for a mere \$15 to \$30. Replacing the whole sole can get pricey, though. Don't spend more than 50 percent of what you paid for the shoes, says David Mesquita of Leather Spa in New York City.
